

Guthbrandr

MALE DWARF HUNTER

Guthbrandr hails from the harsh Jakkar Mountains, where survival is brutal and friendship sacred. Fascinated from youth by cooking as a precise science, he studied mountain herblore to uncover flavorful and beneficial plants. During a starving winter in Morrowraith Pass, he was driven to hunt Forsaken for meat, discovering both a way to survive and how to make even foul flesh edible. After that ordeal, he swore to join the Order of Eventide at the first thaw and use his hunting and cooking so no companion would die from cold or hunger again.
